

The solidity of the support, the beauty of your design.

WHAT IS ONDABLOK?

Ondablok is a system designed for the rapid installation of ceramic flooring without the need for masonry work or adhesives, and it is ready for immediate use. This is made possible by the two main components of Ondablok:

Porcelain Stoneware

Rectified porcelain stoneware tiles available in various sizes and thicknesses.

PP (Polypropylene)

An interlocking system that allows for easy assembly while ensuring perfectly level surfaces.

Advantages of Ondablok

Ondablok combines all the benefits of ceramic materials with ease of installation:

- **Durability:** Ceramics offer high abrasion resistance, making them ideal for high-traffic areas.
- **Easy Maintenance:** Easy to clean and maintain, resistant to stains and chemical cleaning agents.
- **Design Variety:** A wide range of patterns is available to suit different decorative styles and personal preferences.
- **Hypoallergenic:** Does not trap dust or allergens, improving indoor air quality.
- **Low Water Absorption:** Waterproof and suitable for humid areas such as bathrooms and kitchens.
- **Sustainability:** Our ceramics are made from recycled materials, contributing to environmental sustainability.
- **Heating:** Compatible with underfloor heating systems.
